## Did You Know?

An area along the California and Oregon border is often called the "Easter Lily Capital of the World" as it produces 95 percent of all bulbs grown in the world for the potted Easter lily market which is more than eleven million bulbs each year!

Spring is nature's way of saying "Let's Party!"  
~Robin Williams

• picnic in the park

NATURE SCAVENGER HUNT

• plant some flowers

• play a game outside

• TAKE A BIKE RIDE

• feed the ducks

GO FISHING

• Fly a kite

*and have some fun!*

## COMPANY SPOTLIGHT

Welcome to the ultimate solution in home convenience. Haller's Home Automation experts design, install, and program customized systems for our clients. Haller's Home Automation Services include lighting controls, home comfort controls, audio/video controls, security systems, and much more.

### Indoor/Outdoor Lighting Controls

Imagine falling asleep in the living room watching TV. You wake up and stumble to bed, leaving lights on all over the house. You reach over to your nightstand and hit the "Goodnight" button on your keypad and all of the lights in your house turn off except that one light above the sink you like to use as a night light, which just dimmed down to 25%. Lighting controls allow you to manage the amount of light or wattage that is used and over time, this reduced usage can add up to savings. What if your outside lights could tell when the sun went down every day of the year and turn on by themselves? These are just some examples of what today's lighting control systems can do.

### High Performance Video Systems and Multi-zone Audio Systems

It has never been easier to let everyone in the home enjoy the kind of music they like. Multi-zone audio systems are not only a breeze to use, but when coupled with some of today's music choices (Sirius, streaming, iTunes) it becomes an addition to your life that you will wonder how you ever lived without. There are a large number of choices when it comes to whole house music systems and we have done the research for you! Haller will help you make a decision you will feel good about for years to come.

These are just brief descriptions of a couple of the many different automation services available for your home. Please contact our office at [info@musserbuilder.com](mailto:info@musserbuilder.com) to learn more.

## From Jeff's Desk

*Spring... What a great time of the year! The days are getting longer and the temperatures are rising. The grey of winter is fading as the colors of spring are emerging. Gods' blessings of incredible beauty are all around us and yet we tend to go through our busy days and fail to enjoy them. It is so easy to get caught up in the day-to-day activities of life, that we never slow down enough to enjoy the changing scenery all around us. Spring is time of birth and life, beauty and adventure. Robin William once said "Spring is nature's way of saying Let's Party!". I need to be reminded of that from time-to-time. Life is meant to be so much more than "to do" lists, work and watching TV... We can learn a lot by just quietly sitting in the woods and watching life as God designed it. I have to wonder what He thinks as He watches us go frantically through our lives never stopping to enjoy the beauty that he has put right in front us. ...Jeff Musser*
